## Baby Stroller - Stokke Xplory Infant Stroller

### Contact for pricing

The Stokke Xplory V3 is the third generation of the unique high-end stroller and the best-known Stokke model, released in 2010. The iconic design with the single bar in the center of the chassis, the height-adjustable seat and the bag form of the shopping basket divides opinions and makes the Xplory the most popular as well as the most condemned urban stroller.

The rear side of the stroller chassis was adapted to allow the sibling board to be added. The V3 break is in eye-catching orange color and matches the orange Stokke logo at the back. The chassis of the V3 and higher models features an iconic reflective circle placed in the center joints. The shopping bag also underwent a facelift. The new bag is now made of a color matching, two-tone fabric, without the solid top with mesh. The Stokke Besafe car seat was released together with the V3 version and can be added to the frame without the use of adapters.

Unfolded dimensions (h×w×l in cm) 99 × 57 × 34
