Canon FS300 Flash Memory Camcorder - Circa 2010

This handy little camcorder records vibrant, colorful home movies, and it won't weigh you down when you're shooting on the go.

The quick start feature on the Canon FS300 lets you start recording in less than a second simply by flipping open the LCD panel. Quick charge allows you to refresh the battery for an hour of recording time in just 20 minutes, so you'll have a better chance of catching memorable moments. Connect the camcorder to your computer's high-speed USB port to transfer videos to your PC for editing, archiving, or uploading to the web.

This cam has no internal flash memory, so you'll need to add SD or SDHC memory cards to record your footage.
