Manfrotto 503HDV Professional Video Fluid Head

CA\$25 / week

The 503HDV Pro Fluid Video Head is intended for mid-sized camcorders weighing up to 17.6 lbs (8 kg). It features a quick-release camera plate and extra smooth fluid-dampened pan and tilt movements with separate locks. The continuously-variable fluid drag system provides just the right amount of dampening for any shot—from whip pans to slow motion, just dial in drag to touch. This capability, in conjunction with the 3-step counterbalance, delivers the type of fingertip camera control normally reserved for much more costly fluid heads.

- 4-Step Adjustable Counterbalance System
- Tilt Friction + Lock Knobs: All on the Left Side
- Illuminated Bubble Level
- Replaceable Dual Pan Arm Rosettes
- Fluid Drag is Continuously-Variable
- Four leg-angle settings (23, 45, 65 & 88°)
- Continuously-variable fluid drag, multi-spring 3-step counterbalance
- Sliding camera plate with 58mm of travel
