## Genaray LED-6500T 209 LED Variable-Color On-Camera Light

CA\$25 / week

Part of Genaray's Professional Series of on-camera lights, the LED-6500T offers a bright, soft light output, with precision controls, in a compact form-factor. It's very lightweight and perfectly suitable for on-camera applications, and is just as ideal for AC-powered, continuous studio setups. It's adjustable from a warm 3200K to cool 5600K color temperature for different shooting conditions, and features 209 LEDs that deliver up to 900 lux brightness at 3 ft. Brightness is dimmable and flicker-free from 100-10%. Both color and brightness are adjustable by stepless, smooth-tuning dials on the rear. The LED-6500T is stackable vertically with additional LED-6500T units via slide-on, dovetail tracks, allowing you to expand a single light source, especially useful for in-studio productions.

Includes:

- NP-F550 battery w/ single charge
- AC & Car adapter
- A 4-LED indicator on the rear will let you know how much battery life is left.
- Ball head adapter
- Soft case

Size 6" w × 4 h × 2 d

Qty 1

Condition Good
