Working Sony DCR - TRV900 Camcorder Kit

CA\$40 / week

Sony Super Steadyshot MiniDV Handycam Vision DCR-TRV900 NTSC Camcorder was a DV tape camcorder released by Sony in 1998, with an MSRP of USD \$2699. It was intended as a high-end consumer camera, more portable and less expensive than the top-of-the-line DCR-VX1000. It became one of several Sony and Canon models popular in late-'90s desktop video production, delivering quality comparable to then-dominant analog Betacam hardware at a fraction of the cost.
