Alessi Plissé MDL10SB - Hand Blender with Measuring Jug, Whisk and Chopper in Thermoplastic Resin

Full-immersion architecture - The Plissé hand blender resembles a sculpture, a shaped and moulded plastic objet d'art, with intriguingly classic yet contemporary lines. A design that is not purely formal but rich in details that enhance the performance of this indispensable kitchen appliance, like the pleated surface that offers a perfect grip and facilitates the flow of the mixture at the end of the process.
