Bolex H16 Reflex 16mm Movie Camera

CA\$125 / week

Bolex H-16 Reflex 16mm Camera

Circa 1956

OUTER CASE: Highly polished duraluminium body, covered in genuine Morocco leather. Metal parts are chrome-plated.

FILM CAPACITY: 100ft (30m) and 50ft (15m) daylight loading spools of 16mm film.

THREADING: Automatic threading and loop forming. The end of the film is simply placed in a channel leading to the feed sprocket. The release is pressed and the film is then automatically threaded throughout the entire mechanism.

MOTOR: Constant speed, spring motor mechanism; governor controlled. Large winding handle folds downward and attaches to camera when not in use. Spring cannot be over-wound. 8:1 external drive shaft permits the attachment of an electric motor.

TURRET: Rotating turret with folding lever; Accommodates three interchangeable RX type C mount lenses.

VIEWFINDER: 10x magnification; Reflex viewing with semi-reflecting prism system; Adjustable to eyesight. VARIABLE SPEED: 8, 16, 18, 24, 32, 48 and 64 frames per second.
