## Linhof 4X5 Kardan TE View Camera

CA\$625 / week

Linhof 4X5 Kardan TE View Camera

\*\*\*ONE DAY RENTAL\*\*\*

\$125 / per day

The Linhof Kardan TE is a lightweight system camera for studio and location, combining the proven design details of the Kardan range with an innovative monorail and base-tilt elements, providing tri-axial camera adjustments to yield yaw-free movements, both with direct and indirect displacements. The modular design concept, in conjunction with the telescoping monorail, guarantees outstanding stability and provides full format flexibility with rapid conversion to 5x7 and 8x10". Special dovetail fittings allow for sliding the entire monorail back and forth freely on the tripod head.

Yaw-free with precise parallel alignment.  
Scales for repeat settings and instant depth-of-field calculations.

Center axis swings and tilts for uncomplicated Scheimpflug adjustments.

Expanding monorail eliminates the need for costly add-

on extensions.

Parallel locks on base tilt guarantees perfect camera alignment.

Outstanding stability, yet the camera weighs under 10 lbs.

Perfect for professional and advanced amateurs alike.

Upgradeable to 5x7 or 8x10 format.
