Sony DSR-PDX10 DVCAM Camcorder (Working)

CA\$250 / week

ONE DAY RENTAL \$50/day
The DSR-PDX10 - Circa 2002

The DSR-PDX10 provides high-quality acquisition in the DVCAM component digital format, allowing up to forty minutes recording on one Mini DVCAM tape or 60 minutes in DV mode. This compact camcorder features three newly developed 1/4.7 inch million pixel CCD's that allow two scanning modes: 480 progressives(for still) or interlaced(for video). These new Megapixel CCD's also provide high-quality acquisition with increased resolution and sensitivity at reduced vertical smear, and full-resolution true 16:9 acquisition. Additionally, a USB port is provided for Web Streaming connection to a PC. TThe DSR-PDX10 features a built-in DVCAM to MPEG editing capability to the MemoryStick. The built-in electronic zoom lens features Autofocus and SuperSteadyShot with a 12X optical, 48X digital zoom with minimal image degradation, with manual override. A high resolution 246,000 dots TFT color LCD touch panel is provided.
