

Livestock Prod Electric Cattle Prod

CA\$20 / week

Livestock Prod Electric Cattle Prod

THIS CATTLE PROD HAS BEEN DISABLED

Made of high quality engineering plastic (ABS)

This electric cattle prod is designed to help herd moving livestock (herd cattle, pigs, goats) more effectively and efficiently while it will not harm the animals--excellent electrical conductivity and low-current

There is a plastic piece tied to black cord between the handle and the on/off button, which protect the on/off button accidentally being pressed down and connected to power when this item is in transportation or when it is not in use; please take out this plastic piece before you are using it;

Overall length: 41"; Rod length: 31.5"; this prod can be disassembled for easy carrying
