Magellan RoadMate 700 Portable GPS Navigator

CA\$10 / week

The Magellan RoadMate 700 contains a pre-loaded map detailing most of Canada (maritimes excluded), maps for the 48 contiguous United States and 25 European countries, plus an enhanced points-of-interest (POI) database. Customers have full access to the North American maps along with the option to pay to unlock European maps at any time.

RoadMate 700 provides voice prompting, turn-by-turn guidance, and the latest touch screen technology. The Magellan RoadMate 700 calculates your route and automatically updates your directions when you decide to take a detour.

The points of interest features are also a huge benefit for travelers who value the ability to find the closest ATMs, tourist attractions, hotels, restaurants and other businesses in nearly 40 categories. Users can select a specific category of POI icons to be displayed on the map screen while they drive. Plus drivers can easily route to a POI on the map screen by simply touching the POI icon.
