Vintage Glass Kidney Shaped Studio Art Glass Object

CA\$21 / week

Colourful Hand Blown Glass Saucer with UFO Vibes

vintage blown glass art object with an unusual color and texture palette.

It has a beautiful lava-like texture when you shine a light through it. In the first few photos, there is a small light shining through the glass to reveal the inner textures. It is a remarkable piece!

There is a hole at the bottom of the object.

Condition:

Excellent condition. No chips or cracks.

Measurements:

Length: 7.5 inches.

Height: 2.25 inches.

Weight: 1.1kg.
