6" Philodendron Cordatum

Contact for pricing

Available for Rental & Purchase

The 6" Philodendron Cordatum, also known as the Sweetheart Vine or Heart Leaf Philodendron, is a popular house plant that many mistake for a green pothos. However, it is actually part of the philodendron family and boasts long, trailing green vines and foliage. This makes it an excellent choice for adding a touch of green to a ledge or hanging fixture. For optimal growth, it is recommended to provide medium indirect light, though some shade is also tolerated. With its heart-shaped, 2-3 inch leaves, this plant will instantly transform your space into a lush green wonderland.
