Sansevieria hahnii - 'black star'

Contact for pricing

IDEAL LIGHT: Part sun to shade. WINTER HARDINESS: Not cold hardy. WATER NEEDS: Water when soil is completely dry. If in doubt, wait a few more days. More info: These plants can tolerate a wide range of lighting. They are usually kept indoors in the darker parts of the home, because they can tolerate low light better than most plants. However, don't be afraid to give it more light.
