## 1985 Yamaha RZ500 2 Stroke Sportbike All Original

### Contact for pricing

**\*\*Stationary use only\*\*.** The RZ500 was the Big Displacement, bad boy of the street back in the mid 80's. Most two strokes at the time were 250's, maybe 350's and 400's but 500's were nothing short of just awesome!. If you're looking for a motorbike that would look right at home in a collection, a museum shot or a classic dealership scene, this bike would definitely fit the mold. She's in excellent condition, all stock just like she was built from the factory and widely recognized by the motorbike community as an Iconic Motorbike.
