

Portable 15 Kw Heater

Contact for pricing

Powerful heating with ZERO fumes and ZERO emissions. No need to vent, just plug and go!

Equipped with a custom made breaker panel to safely adapt to your Cam-Loc power cables connections on location. For added convenience, plug two units into one panel box. You can heat a private warming tent and up to 50 feet away provide heat to your Video Village at the same time!

These units rent for a Single Day and Weekly rate. Long term contracts are recommended for the winter months since our stock is limited and the demand is always high on that initial cold blast of the year! Contact us for further details and price options.
