## Diner/Restaurant Booths Set

### Contact for pricing

Two booths. Four seats. Zero privacy. This burnt orange diner set is built for awkward silences, greasy food, and conversations that go downhill fast. Perfect for 1970s through early 2000s diners, dive restaurants, and small-town lunch spots (which we hope do not have carpeting)

In addition to the set shown in the photos, we also have one more double-sided diner booth (total of 2) and two more single-sided diner booths (total of 4) available for larger setups, offering flexibility for different scene requirements.
