The Royal Quiet De Luxe, introduced in 1939, was built for writers who chain smoked their way through deadlines and didn't need a delete key to second guess themselves. These days, it's also a magnet for hipsters who swear their novel just gives better vibes when typed on real ribbon. Perfect for noir offices, tortured poet lofts or any scene where the coffee's cold and the irony is hot.

from [Fennick Studio Props](#) in Passaic, NJ

Size 16" w x 9" h x 16" d
