## Printer

### Contact for pricing

Non-Functional

Apple's LaserWriter 16/600 PS, introduced in 1995, was the beige beast quietly churning out memos, invoices, and someone's doomed screenplay in corporate cubicle farms everywhere. Perfect for 90s office sets, tech startup crash and burn stories, or Y2K era government thrillers where the printer is somehow the only thing still working.

Apple Brand

---

from [Fennick Studio Props](#) in Passaic, NJ

Size 15.5" w × 12" h × 19" d

Qty 1

Condition Good

SKU 01608
