Jukebox

Contact for pricing

Fully Functional and set to infinite play

The Rock-Ola Model 1422 jukebox was introduced in 1946 with Deco glass, curved wood, and just enough glow to cut through the cigarette smoke. Perfect for postwar barrooms, VFW halls, or any set where someone's drowning memories one song at a time.

Side lights are turned on using the top sliding switch on the back of the jukebox. Slide and hold this switch for 1-2 seconds then release.
