Parking Meter

Contact for pricing

Outfitted with a screen, terminating to an HDMI cable so you can put any image you would like on the screen!

The Digital Payment Technology Multi-Space Parking Meter is equipped with a user-friendly interface, it supports coin and card payments, providing detailed instructions and issuing receipts. This meter is perfect for film or TV sets depicting modern urban environments, commercial districts, or transportation hubs. Its sleek design and practical functionality make it an ideal prop for creating realistic scenes involving contemporary public infrastructure and parking management systems.
