Multi Line Phone

Contact for pricing

This multiline phone from Nortel Networks is designed for professional office environments, featuring a robust black design with multiple programmable buttons and a digital display. The phone includes features such as line selection, hold, transfer, and intercom capabilities, making it an essential tool for efficient communication in business settings.

Ideal for film or TV sets depicting modern office environments from the 1990s to the present, this Nortel Networks phone adds an authentic touch to any production. Its design and functionality reflect the evolution of office communication technology, providing a realistic and period-accurate prop for contemporary office scenes.
