## Airplane Cabin Set

### Contact for pricing

This Convair CV-240 airplane interior set runs from the cockpit door to the rear galley, with widened aisles so your dolly grip doesn't have to crab walk sideways with a 50-pound rig to get the shot. With seating for 40 passengers and enough mid century charm to make Don Draper order a double (we all know he would anyway). The only section not included is the cockpit, so you'll have to fake your pilot drama elsewhere.

This set is modeled after the Convair American Airliner CV-240, which was manufactured and produced from 1947 to 1954.

The dimensions of the plane are 48' 9 3/4" x 10" 5" x 7" 6". The set is composed of multiple pieces, so it can be built in sections and disassembled for storage and shipping.
