## Siemens Telex Machine on Stand

Contact for pricing

Fully Functional

The Siemens RTA-80 Telex Machine, introduced in the 1960s, is a notable telecommunications device used for sending and receiving typed messages over long distances via telegraphy networks. This machine is recognized for its reliability and efficiency in commercial and governmental communications. Ideal for movie and TV sets depicting office environments, newsrooms, and communication centers from the mid-20th century, the Siemens RTA-80 adds authenticity to period productions with its classic design and functionality
