Private Swinging Door

Contact for pricing

This 36-inch tall wooden door panel, crafted from rich, dark wood, prominently displays the word "PRIVATE" in gold lettering across the top. The panel's aged patina and vintage hinges suggest it once served as a partition in a historic building, such as an old office, hotel, or speakeasy. Its classic design and authentic wear make it an excellent choice for period films, particularly those set in the early to mid-20th century, where it can evoke a sense of exclusivity and hidden spaces.
