Fire Bucket

Contact for pricing

This vintage fire brigade bucket is made of red metal with black stenciling that reads "FIRE ONLY." The bucket shows signs of wear, with chipped paint and scuff marks adding to its aged, authentic look. It includes a sturdy metal handle for easy carrying. This piece is ideal for historical or industrial settings in films or TV shows, particularly for scenes depicting fire safety equipment in early 20th-century factories, workshops, or fire stations.
