Realistic TRC-82 Walkie Talkies

Contact for pricing

Non Functional

The Realistic TRC-82 walkie talkies, introduced in the 1970s, are 3-channel CB transceivers known for their reliable performance and durable build. These devices were popular for casual use and outdoor activities, making them ideal for movie or TV sets depicting communication technology from the 1970s to 1980s, adding an authentic period detail to scenes involving outdoor adventures or emergency services
