White House Press Briefing Room Shadowbox

Contact for pricing

This shadowbox commemorates the ribbon-cutting ceremony for the modernization and renovation of the White House Press Briefing Room on July 11, 2007. It features a photograph of the event with President George W. Bush and other officials, along with the ceremonial gold scissors used during the event, decorated with a red, white, and blue ribbon. This replica of the original piece would be suitable for the White House Press Briefing Room set.
