## JBL 4311B "Control Monitor" Speakers

### Contact for pricing

The JBL 4311B Control Monitor speakers are iconic studio monitors, originally introduced in the 1970s. These speakers offer accurate sound reproduction, making them popular in recording studios for their balanced audio across a wide frequency range. They feature a three-way speaker system with a 12-inch woofer, 5-inch midrange driver, and a 1.4-inch tweeter, providing excellent clarity for professional audio environments.

This set comes with optional interchangeable speaker covers in black, blue, red, and brown, allowing you to customize their appearance to suit various film and TV set designs, whether for vintage or modern production settings.
