News Anchor/Reporter Desk with Acrylic Top

Contact for pricing

This glowing gray anchor desk w/ a clear acrylic top is built for breaking news, forced smiles, and public apologies in high definition. The frosted front panel is ready for custom vinyl, because nothing says "journalistic integrity" like branding it yourself. Perfect for network sets, talk shows, or any scene where the truth is optional but lighting is mandatory.

Illuminated by 11 Quasar Crossfade tubes. Strips of RGB DMX LightGear LightRibbon run beneath black straps, adding dynamic RGB lighting.
