Patient Monitor - Eagle 4000

Contact for pricing

Eagle 4000, EKG Monitor, Marquette. The GE Eagle 4000 Patient Monitoring System can display various vital sign waveforms including 5-lead ECG, oxygen saturation (SP02/pulse oximetry), respiration rate, as well as blood pressure. This working monitor can be used as a "live" patient/actor hookup, displaying actual human vital signs in real time. An optional Patient Simulator device can also be hooked up in order to dial in specific vital sign numbers and waveforms. Each unit comes on a (optional) rolling stand and includes 5-lead ECG cables, SP02 cable and finger probe, blood pressure cuff with cable and Red Dot ECG electrode stickers.
