Money Counter

Contact for pricing

Modern electronic money counter for accurate bill counting. Ideal for scenes of banks, offices, or retail settings. NOTE: Money Counters CANNOT count prop money.

Propmaster Tip: If you need to count money in a money counter, go to the bank and get a stack of \$1's. Put a real \$100 bill on the top and bottom of a stack. This way it will look like \$10,000. Now load it in the money counter and it WILL count it! It gives you a very dramatic look. When you're done, just bring it back to the bank! Easy!
