Luxury Jet Set, Luxury Jet Airplane Interior Set, Content Studio

Contact for pricing

This airplane is built for pure luxury in our content studio. This gorgeous 40' Luxury Jet set has the finest leather, wood, and interior design available. It can hold up to 16 people. It has two large teak dry bars, and an optional dining table that can be added. The reclining leather seating is luxurious white leather. The massive white leather couch is elegant, and purely decadent.

There is a secluded area at the end with 2 leather benches which can be used to accommodate up to 4 flight attendants or passengers. Or it can be used as a place for guests to slip away for privacy. It has 8 foot tall ceilings, and it's W-I-D-E.

The set has non-flicker cinematic lighting for filming. There are 2 lighting channels, which run the length of the plane which can accommodate standard LED filming lighting sticks. If you put lighting sticks in them, it casts beautiful color arcing across the ceiling. There are 2 TVs which are working. They can be used to play your media, your commercial, or your artist's video while you are filming. They are SVGA monitors. They each have an external SVGA feed on the outside of the set. You can feed your SGVA signal, or use an HDMI signal with an SVGA converter.

This incredible set is available for your project! Call RJR Props to reserve it 404-349-7600.
